

## **Aquatic Infrastructure Resources – Building Better Pools**

The Aquatic Sport Council – Ontario is pleased to announce a refresh of its resource website

[www.aquaticsportontario.ca](http://www.aquaticsportontario.ca)

The ASC, formed in 2008, represents the sports of swimming, diving, artistic swimming, water polo and lifesaving. Its mission is to promote the building of sport friendly pools in Ontario; through a better understanding of the benefits of aquatic sport, collaboration across users and operators and the provision of resources that increase an understanding of infrastructure needs and uses.

The development of the resources found on our website was supported by grants from The Ontario Trillium Foundation. Most recently the ASC has moved its website to a more stable environment provided by Swim Ontario. The resources have been updated and the list of existing pools in Ontario expanded.
